

The first truly & provably fair solution with no house interaction

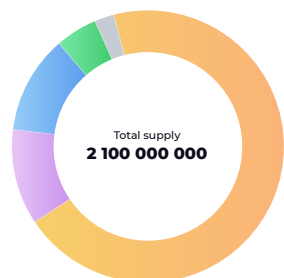

True revolution in the betting & gaming industry

We YOUUnited all players within the truly fair, decentralised, player vs player online betting and gaming platform with no house interaction. The YOUUnited Solution based on customised UNTD blockchain technology is completely changing the betting and gaming industry.

UNT D coin

UNT D coin powers the whole YOUUnited betting & gaming ecosystem on our own native UNTD blockchain customized to minimize all operational costs. It is the playing chip used for placing bets and paying game entries, as well as for the prize pool and affiliate program payouts. UNTD coin is the fuel that makes the whole YOUUnited ecosystem sustainable.

- Truly fair algorithm
- Social character

YOUUnited PRODUCTS

- UNTD blockchain
- YOUUnited lotteries
- Quick & Skill games
- Sports betting
- Casino games
- Platform for operators

100% Return to Player

How it works

YOUUnited players always bet and play against each other with no house or any third-party interaction. The players' bets and game entries create the prize pool which is distributed to the winner (or multiple winners) after each finished game, hence every YOUUnited game has a winner (or winners). Our ultimate solution without any house interaction provides 100% return to player (RTP) and zero house edge.

Betting & gaming benefits

- 100% return to player
- Zero house Edge
- No house interaction

Blockchain benefits

- Unique random number generator
- Genuine transparency
- Fast transactions

Affiliate program

- Ambassador - for limited number of licensed online operators from various countries
- Referral - for every registered YOUUnited member
